335-6-15-.34 Permanent Closure and Changes-In-Service.

(1) At least 30 days before beginning either permanent closure or a change-in-service of an UST system under paragraph (2) and (3) below, or within another reasonable time period determined by the Department, owners and operators must notify the Department of their intent to permanently close or make the change-in-service, and the method of proposed closure, unless such action is in response to corrective action. The required assessment of the excavation zone under rule 335-6-15-.35 must be performed after notifying the Department but before completion of the permanent closure or change-in-service. Upon completion, a notice of final closure or change-in-service must be submitted to the Department.

(2) To permanently close an UST system, owners and operators must:

(a) Empty and clean underground storage tanks by removing all liquids and accumulated sludges and either remove from the ground or leave in place and fill with an inert solid material.

(b) Empty underground piping by removing all liquids and either remove from the ground or cap and leave in place.

(c) Cap or remove all lines, manways, and/or other connections.

(d) Conduct a site assessment when an underground storage tank and/or piping is permanently closed in accordance with paragraph (1) above.

(e) Use individuals who meet the certification requirements for performing permanent closure of UST systems in rule 335-6-15-.47

(3) Continued use of an UST system to store a non-regulated substance is considered a change-in-service. Before a change-in-service, owners and operators must empty and clean the UST system by removing all liquid and accumulated sludge and conduct a site assessment in accordance with paragraph (1) above.
